

**MICRONETIXX**  
High Power Industrial Microwave Systems & Components

## Portable Microwave Power Measurements...

*Mod. 714A/B Portable Digital Power Meter*

*Micronetixx Precision Directional Couplers*

**For Maintenance and Plant Engineers, knowing EXACTLY how many Kilowatts of Microwave Power are actually in the Waveguide in your System would greatly help Production Staff optimize productivity and performance.**

**...With the Micronetixx Model 714A/B Portable Digital Microwave Power Monitor, it's right there! (The "A" Model is for 900-940 MHz, the "B" Model is for 2.45 GHz)**

**MICRONETIXX TECHNOLOGIES; ...We've been SPECIALIZING in High Power and Ultra-High Power RF and Microwave Systems and Components for over 3 decades.**
